ELIGIBILITY CRITERIA AND RELATED INFORMATION

Each assessing medical or nurse practitioner is to make these determinations independently, document in the health record, and summarize their findings below. Comments for any matter in any section are clarified in the medical record.

Form with fields: Assessment Date (YYYY / MM / DD), In Person, By Telemedicine, If Telemedicine: Name of Witness (Regulated Health Professional), Witness Profession, Witness College ID.

Form with question: Location of Assessment and checkboxes for Home, Facility - Site, Unit, Other - specify.

I confirm that the following safeguards are met:

Form with multiple checkboxes for confirming safeguards: The patient is personally known to me or has provided proof of identity, and has consented to this assessment. I do not know or believe that I am a beneficiary under the will of the patient requesting medical assistance in dying or a recipient, in any other way, of a financial or other material benefit resulting from the patient's death, other than the standard compensation for their services relating to the request. I ensured that the patient's request for medical assistance in dying was made in writing and signed and dated by the patient or by another person permitted to do so on their behalf. I was satisfied that the request was signed and dated by the patient, or by another person permitted to do so on their behalf, and before two independent witnesses who then signed and dated the request. I ensured that the request was signed and dated after the patient was informed by a practitioner that the patient had a grievous and irremediable medical condition. I was satisfied that the other practitioner and I are independent.

THIS FORM DOES NOT CONSTITUTE LEGAL ADVICE; it is an administrative tool that must be completed for medical assistance in dying.

Consideration of capability to provide informed consent. Check one of the following:
(Capable means that person is able to understand the relevant information and the consequences of their choices)

I have **no reason** to believe the patient is incapable of providing informed consent to medical assistance in dying.

OR

I have **reason to be concerned** about the capability of the patient to provide informed consent.

I have referred the patient to another practitioner for an assessment of capability to provide informed consent.

Name of Practitioner Performing Determination of Capability

On receipt of the requested assessment, I determine that the patient:

is capable of providing informed consent

is **not** capable of providing informed consent

Change in Eligibility (to be completed if, in your opinion, the patient was not eligible)

Had you previously determined that the patient was eligible for MAiD?

Yes No

If Yes, was the patient's change in eligibility due to the loss of capacity to make decisions with respect to their health?

Yes No

If Yes, did you become aware that the patient's request was not voluntary (e.g. based on new information regarding external pressure)?

Yes No

CONCLUSION REGARDING ELIGIBILITY and PRACTITIONER SIGNATURE

I determine that the patient:

Does meet the criteria for medical assistance in dying

Does **not** meet the criteria for medical assistance in dying

If it is determined that the patient does not meet the criteria, the assessing practitioner is to advise the attending practitioner and the patient of the determination and of the patient's option to seek another opinion.

PLANNING FOR MEDICAL ASSISTANCE IN DYING

I have received and reviewed the assessment by at least one other independent colleague (HLTH 1633) indicating the patient is eligible for medical assistance in dying.

I have discussed with the patient the following options for administration and the patient has requested:

Practitioner-administered Intravenous (IV) Regimen, or

Patient self-administered Oral Regimen (supervised by practitioner)

I have planned for potential issues (failure of oral route to achieve effect, issues with initiation of intravenous access, etc.)

There is a location and timeline for provision:

Planned Location: Home Facility - Site: _____ Unit: _____ Other - specify: _____

Planned Date: _____ Days From Initial Request (if fewer than 10 clear days) _____

I ensured that there were at least **10 clear days** between the day on which the request was signed by or on behalf of the patient and the day on which MAiD was provided.

Where you considered a shorter period than 10 clear days appropriate in the circumstances, was it the patient's death or loss of capacity to provide informed consent that was deemed imminent?

Patient's death

Patient's loss of capacity to provide informed consent

I have reviewed with the pharmacist the request, assessments, and a plan to provide and administer medical assistance in dying, as well as to return any unused medications to the pharmacist within 72 hours after confirmation of death.

I have indicated on the prescription or order that the medication is for medical assistance in dying.

PATIENT CONFIRMATION OF REQUEST AND CONSENT IMMEDIATELY PRIOR TO MEDICAL ASSISTANCE IN DYING

By signing below I confirm that I was given the opportunity to withdraw my request, and I give express consent to receive medical assistance in dying at this time.

Signature of Patient	Date Signed (YYYY / MM / DD)
----------------------	------------------------------

PROXY SIGNATURE (IF APPLICABLE) (must be signed in front of patient)

If patient is physically unable to sign, a proxy (another person) may sign on the patient's behalf and under the patient's express direction. The proxy signing here can be one of the witnesses listed in the Patient Request Record. The proxy must be at least 18 years old, understand the nature of the request, not know or believe they are a beneficiary in the will or recipient of financial or other material benefit resulting from the death of the patient, and must sign in the presence of the patient.
