I have been cor	ntacted by the patier	nt or another colleagu	ue and agree	to be a	n assessor. I am	prepared to be the
Initials prescriber cond	erning this patient's	request for medical a	assistance in	dying.		
Confirmation of eligibility and informed consent  Each assessing physician is to make these determinations independently, document in the health record, and summarize their findings by initialing the boxes below*.  Patient diagnosis:						
Patient prognosis:						
This assessment was conducted: ☐ In person ☐ By telemedicine Date:						
I confirm that:						
The patient is personally known to me or has provided proof of identity.						
I do not know or believe that I am a beneficiary under the will of the patient requesting medical assistance in dying or a recipient, in any other way, of a financial or other material benefit resulting from the patient's death, other than the standard compensation for their services relating to the request.						
The patient's request for medical assistance in dying was made in writing and signed and dated by the patient or by another person on their behalf and under their express direction.						
The patient's request for medical assistance in dying was singed and dated after the patient was informed by a practitioner that they have a grievous and irremediable medical condition.						
I have satisfied that the request was signed and dated by the patient, or by another person on their behalf and under their express direction, before two independent witnesses who then also signed and dated the request.

I have deter	mined that the patient meets all of the criteria to be eligible for medical assistance in dying:				
Initials 1. 7	The person is eligible for health services funded by a government in Canada				
Initials 2. 7	The person is at least 18 years of age				
Initials 3.	The person is capable of making this health care decision				
t c	The person has a grievous and irremediable medical condition (serious and incurable illness, disease, or disability) that causes the person enduring physical or psychological suffering that is intolerable to them and hat cannot be relieved in a manner that the person considers acceptable. The person is in an advanced state of irreversible decline and the person's death is reasonably foreseeable.				
	The person has made a voluntary request for medical assistance in dying that was not made as a result of external pressure				
	After having been informed of the means that are available to relieve their suffering, including palliative care, he person has given informed consent to receive medical assistance in dying				
<ul> <li>His or her m</li> <li>The feasible</li> <li>His or her ri</li> <li>The potentia</li> <li>The probab</li> <li>The recomm</li> </ul> Consideration	determined that the patient has been fully informed of: nedical diagnosis and prognosis a alternatives including, but not limited to, comfort care, hospice care, and pain control ght to rescind the request at any time all risks associated with taking the medication to be prescribed le outcome/result of taking the medication to be prescribed nendation to seek advice on life insurance implications  on of capability to provide informed consent** (Indicate one of the following):				
Initials dyin	ve no reason to believe the patient is incapable of providing informed consent to medical assistance in g.				
Initials	request for medical assistance in dying is arising solely from a psychiatric condition and/or I otherwise have son to be concerned about capability and I have referred the patient to Dra determination of capability to provide informed consent.				
	receipt of the requested opinion, I determine that the patient:   Is capable of providing informed consent  Is <b>not</b> capable of providing informed consent				
Conclusion regarding eligibility  I determine that the patient:   Does meet the criteria for medical assistance in dying					
□ Does not*** meet the criteria for medical assistance in dying					
Physician si	gnature: College ID: Date: Time:				

<sup>\*</sup> Comments for any matter in any section are clarified in the medical record.

<sup>\*\*</sup> Capable means that person is able to understand the relevant information and the consequences of their choices

<sup>\*\*\*</sup>If the patient is determined to not meet the criteria, the physician assessor is to advise attending physician and patient of determination and of his or her option to seek another opinion.
